

# Limnologen Aktuell March

## ICE WORKSHOP

**Gesa** joined an international ice workshop in February in Lake Mendota, Madison, USA.

## DOM RETREAT

The DOM gang (**Konstantinos, Mona, Charlotte, Sarah, Stacey (BMC), Evelina, Isak, Pavel, Elizabeth, Marloes, Dolly** and **Lars**) retreated to Erken on Feb 7-8. In addition to presentations and discussions on papers, ongoing and upcoming work, some of the group also enjoyed the sauna and isvak (much thanks to the ladder support crew!) and some ice skating!

## RADIO INTERVIEW

On 23rd of February **Kevin** and **Ellinor** had a live-radio interview by P4 Uppland Sveriges Radio out on the lake. You can hear them here: <https://sverigesradio.se/avsnitt/2110464> at minute 3:45:00. Here's also a short video on their Instagram channel: <https://www.instagram.com/p/CpALEBjjQgR/?hl=en>

## SAMPLING

Every other week the ice group (**Ellinor, Kevin, Erik** and now **Mathias**) is out sampling lakes across Uppland. They look at communities below ice as well as fatty acid content of zooplankton. They also try to understand what drives differences in ice stability and bearing capacity across the winter.

## NEW FACE

**Mathias Ruel** is a French student enrolled in the École Nationale Supérieure Agronomique de Toulouse (ENSAT). Currently, he is doing an internship in the field of limnology, working alongside **Ellinor, Kevin,** and **Erik** on the studies of frozen lake ecosystems.

**Fun fact:** Mathias is a volleyball lover and tries to play as much as possible every day and as all french people, he loves eating cheese.

**Leaving Limno?** Don't forget to fill out the 'checking out' document with your PIs if you're leaving the department this month.
